When will this Invasion take Place?

1. The invasion will take place in the "latter years" or "latter days", which can only be taken to mean the end times.
2. No invasion on the magnitude of Ezekiel 38-39 has ever taken place in Israel's history, so the invasion must yet be future.
3. A precondition for the invasion is that Israel must first be restored to the land (1948 was a pivotal year in this regard).
4. Israel must be living in security.
5. Certain national developments are to be expected in conjunction with this invasion.
